

The drawing shows a structural frame with three beams. The main frame consists of three vertical beams (Belka nr. 1, 2, 3) and three horizontal beams (Belka nr. 1, 2, 3). The beams are connected by rigid joints. The drawing includes the following views and dimensions:

- Belka nr. 1 (Top Beam):**
 - Widok boczny (Side View):** Shows a cross-section with a total width of 120 and a height of 82. The top flange has a width of 44, and the web has a width of 34. The bottom flange has a width of 42.
 - Widok z góry (Top View):** Shows a cross-section with a total width of 120 and a height of 82. The top flange has a width of 44, and the web has a width of 34. The bottom flange has a width of 42.
- Belka nr. 2 (Middle Beam):**
 - Widok boczny (Side View):** Shows a cross-section with a total width of 120 and a height of 82. The top flange has a width of 44, and the web has a width of 34. The bottom flange has a width of 42.
 - Widok z góry (Top View):** Shows a cross-section with a total width of 120 and a height of 82. The top flange has a width of 44, and the web has a width of 34. The bottom flange has a width of 42.
- Belka nr. 3 (Bottom Beam):**
 - Widok boczny (Side View):** Shows a cross-section with a total width of 120 and a height of 82. The top flange has a width of 44, and the web has a width of 34. The bottom flange has a width of 42.
 - Widok z góry (Top View):** Shows a cross-section with a total width of 120 and a height of 82. The top flange has a width of 44, and the web has a width of 34. The bottom flange has a width of 42.

The drawing also includes a section line 'e-e' and a section line 'C-C'.
